# TARGET MARKET DETERMINATION

**Made by:** Stavely Minerals Limited (ACN 119 826 907) of First Floor, 168 Stirling Highway, Nedlands, Western Australia, 6009 (**Company**)

**Product:** Free attaching options in connection with a placement of fully paid ordinary shares (**Shares**) announced by the Company on 4 August 2025 (**Placement**) under a prospectus dated 15 September 2025 (**Options**).

**Effective date:** 15 September 2025

This target market determination (**TMD**) has been prepared by the Company in relation to an offer to issue the Options made by the Company under a prospectus dated 15 September 2025 (**Prospectus**). A copy of the Prospectus is available on the Company's website, www.stavely.com.au. Copeak Pty Ltd (ACN 607 161 900), (Corporate Authorised Representative (number 1295246) of LeMessurier Securities Pty Ltd (ACN 111 931 849) the holder of AFSL 296877) has been appointed as the lead manager to the Placement (**Lead Manager**).

The offer will be made under, or accompanied by, a copy of the Prospectus. Any recipient of this TMD should carefully read and consider the Prospectus in full and consult their professional adviser if they have any questions regarding the contents of the Prospectus. Any recipient of this TMD who wants to acquire Options under the offer will need to complete the application form that will be in, or will accompany, the Prospectus. There is no cooling off period in respect of the issue of the Options. This TMD is not a disclosure document for the purposes of the *Corporations Act 2001* (Cth), and therefore has not been lodged, and does not require lodgement, with the Australian Securities and Investments Commission (**ASIC**) nor does it contain a full summary of the terms and conditions of the Options.

This TMD does not take into account what you currently have, or what you want and need, for your financial future. It is important for you to consider these matters and read the Prospectus before you make an investment decision. The Company is not licensed to provide financial product advice in relation to the Options.

## 1. TARGET MARKET

| Factor | Target market |
|---|---|
| **Investment Objective** | The Company expects that an investment in Options will be suitable to investors who wish to gain exposure to equities in a small-cap mining company listed on the Australian Securities Exchange (**ASX**). |
| **Investment Timeframe** | The target market of investors will take a short to medium term outlook on their investment. Investors with a short-term outlook for their investment will benefit from an anticipated listing of the Options on ASX, as well as an ability to exercise Options and trade the underlying fully paid ordinary shares in the capital of the Company (**Shares**) issued on exercise should the exercise price of the Options be lower than the trading price of Shares. Investors with a medium-term outlook will benefit from an ability to exercise Options within the term of the Options and increase their shareholding and exposure to the potential upside in the Shares into the future.<br>Given the need to pay the exercise price in order to acquire Shares, investors in the target market are in a financial position that is sufficient for them to invest their |

|---|---|
| | funds over the time horizon of the exercise period of the Options, as set out in the Prospectus, during which their ability to liquidate their Options in the Company may be limited by a lack of liquidity in the Options and by the trading price of Shares. |
| **Investment Metrics** | While the Company does not have an established eligibility framework for investors based on metrics such as age, expected return or volatility, it is expected that the target market of investors will be able to withstand potential fluctuations in the value of their investment.<br>An exercise price is required to be paid to acquire Shares on exercise of the Options. As such, the capacity to realise the underlying value of the Options would require that they be exercised on or before the expiry date. Investors in the target market will need to be in a financial position to have sufficient available funds so as to facilitate an exercise of the Options prior to the expiry date. Prior to the expiry date, investors' ability to liquidate the Options may be limited by a lack of liquidity in the trading of Options and Shares and the price of the Shares.<br>The Options offer no guaranteed income or capital protection. |
| **Risk** | The Company considers that an investment in the Options is highly speculative, such that an investment in the Company is not appropriate for an investor who would not be able to bear a loss of some or all of the investment. Investors should also have a sufficient level of financial literacy and resources (either alone or in conjunction with an appropriate adviser) to understand and appreciate the risks of investing in Options as an asset class generally and the more specific risks of investing in an Australian listed mining company. |

## 2. DISTRIBUTION CONDITIONS

The offer of Options under the Prospectus comprises offers of:

(a) up to 67,857,157 Options to unrelated sophisticated investors who participated in the Placement;

(b) up to 2,515,000 Options to related party investor participants in the Placement; and

(c) 7,000,000 Options to the Lead Manager of the Placement.

The Prospectus will include jurisdictional conditions on eligibility. The Company will also include on its web landing page for the offer of Options a copy of this TMD and require that eligible recipients confirm that they meet the eligibility criteria of the expected target market outlined in this TMD before they apply for Options.

The Company considers that these distribution conditions will ensure that persons who invest in Options fall within the target market in circumstances where personal advice is not being provided to those persons by the Company.

## 3. REVIEW TRIGGERS

The Options are being offered for a limited offer period set out in the Prospectus, after the conclusion of which the Options will no longer be available for investment by way of issue. It follows that the TMD will only apply in the period between the commencement of the offer of the Options and the issue of the Options shortly after the close of the offer (**Offer Period**).

To allow the Company to determine whether circumstances exist that indicate this TMD is no longer appropriate to the Options and should be reviewed, the following review triggers apply for the Offer Period:

(a) a new offer of Options that requires preparation of a disclosure document is made after completion of the Offer Period;

(b) any event or circumstance that would materially change a factor taken into account in making this TMD;

(c) the existence of a significant dealing of the Options that is not consistent with this TMD. The Company does not consider that an on-sale of the Options on market is a significant dealing;

(d) ASIC raises concerns with the Company regarding the adequacy of the design or distribution of the Options or this TMD; and

(e) material changes to the regulatory environment that applies to an investment in the Options.

## 4. REVIEW PERIOD

If a review trigger occurs during the Offer Period, the Company will undertake a review of the TMD in light of the review trigger.

The Company will otherwise complete a review of the TMD immediately prior to the issue of Options under the offer.
